CONGRESS ORGANIZING COMMITTEE

Chairmen of committee:

Professor Thomson Xavier Antony Ananth - Director, International Operations, DMI, President Saint Joseph University in Tanzania (SJUIT), Council (Professor, PhD, India)

Professor Burton Lunogelo Muhamilawa Mwamila - Vice Chancellor, Saint Joseph University in Tanzania, (Professor, PhD, Tanzania)

Professor Roger L. Mbise - Principal, Saint Joseph University in Tanzania, Saint Joseph College of Health Sciences (MMed, Tanzania)

Professor Rafael Bisaliev - Vice Principal, Saint Joseph University in Tanzania, Saint Joseph College of Health Sciences (Professor, PhD, DSc, Russia)

Members of committee:

Professor G. Bhaskara Raju (PhD, India)

Professor I. F. Ngalinda (PhD, Tanzania)

Professor A. L. Mollel (PhD, Tanzania)

Professor B.L. Mtinangi (PhD, Tanzania)

Professor K. Sathiskumar (PhD, Mexico)

Associate Professor J.J. Asongu (PhD, USA)

Associate Professor E.M. Vakhitov (PhD, Russia)

Associate Professor S.N. Yukhimets (PhD, Russia)

Associate Professor R. Jeya Sheela (PhD, India)

Associate Professor R.A. Bisaliev (PhD, Russia)

Associate Professor T.N. Savchenko (PhD, DSc, Russia)

Associate Professor E.V. Popova (PhD, Russia)

Dr. S.A. Ajonina (PhD, Canada)

Dr. S.V. Redkozubov (PhD, Russia)

Dr. K. Parthiban (PhD, India)

Dr. M.U. Ajonina (PhD, Cameroon)

Dr. R. Mwaiswelo (PhD, Tanzania)

Dr. P. Ashokkumar (PhD, Nigeria)

Secretaries of committee:

Mr. M. Veerababu (MA, MEd, MPhil, India)

Mr. A. Mapande (OD, BE, Tanzania)

Dear Academicians/ Research Scholars,

St. Joseph University in Tanzania is a Tanzanian University shall be hosting an international congress on the theme “Medical and Biological sciences: Achievements and Perspectives” we invite you to submit research paper for publishing in our journal. Articles from the following areas will be welcomed.

THE MAIN DIRECTIONS OF THE CONGRESS:

Section 1. Medical Sciences;
Section 2. Biological Sciences;
Section 3. Pharmaceutical Sciences;
Section 4. Modern aspects in Medical Education.

The authors are kindly invited to submit full text paper including results, tables, figures and references using the template format (attached herewith).

The organizers may present you all accepted articles **in PDF format** at the end of the congress.

All articles will be put in an e-book and get **international indexes (ISBN, ISSN)**.

There is **no limit for number of articles** and authors.

All publications are **free** of costs.

The deadline for submission is **April 2^d, 2018**.

Authors can submit their manuscript electronically through veerababu@sjchs.sjuit.ac.tz or vpacademic@sjchs.sjuit.ac.tz

Authors are fully responsible for the reliability of the materials submitted.

Physical presence is not needed.

Conditions for Submission of articles for SJUIT International Congress

Authors are asked to submit your articles in Microsoft Word format.

Font: Times New Roman

Character size: 12

Page layout: 2.5 cm all round

Line spacing: 1.5

Number of Pages: no more 7 pages

Working languages: English and Russian

Manuscript Title

The title should include sufficient detail and be understandable for readers outside the field to appreciate what the paper is about. Please, include full name of author(s) below the title in a separate line. Please include name of department, institution, city and country of all author(s).

For corresponding author, e-mail, telephone and fax number should be provided.

If the publication / articles consist of several authors from different universities, the membership must be indicated by a footnote (example Smith R. ¹, Veerababu A.N. ² etc.)

Abstract

Provide a concise conclusion about the research. The abstract should state briefly about the research's background, research objective(s), methodology, results, discussion and overall conclusions and must not be over than 300 words. No references are allowed in the abstract.

Keywords

Please provide a maximum of 5 keywords with capitalize first letter, separated with semicolon. Author should avoid general and plural terms and multiple concepts (eg. 'and', 'of'). Keywords must be precise and representing the subject of research.

Introduction

Please state the objectives of the research and provide an adequate background of the research, however, author should avoid a too much detailing literature reviews.

Materials and Methods

Materials and methods should be written in order and concisely but should contain all information necessary. However, relevant modifications of published method should be described.

Results and Discussion

Results should be as clear as concise and can be presented in tables, graphs or figures. Data should be explained in sequence and avoid repetition of data. The discussion must be focused on the interpretation of the results and supported by relevant evidences. Authors are encouraged to discuss their findings in broader context however must only into related subjects.

Tables and Figures

Tables and figures should be presented in sequence where the table is first cited. Tables and figures must be cited in the main text in numerical order (eg. Table 1, Table 2,...etc; Figure 1, Figure 2,... etc) and should be self-explanatory and include a brief descriptive title. All symbols and abbreviations used must be explained.

Equation

All equation must be numbered and mentioned in the text. Please use the Microsoft Equation which can be found under insert object in the toolbar.

Artwork

All artwork must be in JPG, JPEG or TIFF format. Please do not supply files that are too low in resolution.

Conclusion

Conclusion of the study should be presented in short but precisely. Avoid citation in this section.

References

Please, arrange your list of references in the Alphabetical order.

ABSTRACT

Bacterial vaginosis (BV) is a polymicrobial, superficial vaginal infection involving a reduction in the amount of hydrogen peroxide-producing Lactobacillus and overgrowth of anaerobic bacteria.

Key words: *Bacterial vaginosis, sexually active women aged 15-45 years.*

INTRODUCTION

Reproductive-tract infections (RTI) including bacterial vaginosis, are major public health concerns among sexually –active women in developing countries with bacterial vaginosis alone being responsible for 40-50% of vaginal infections [8].
